dickolson@psc.nu

PSC is devoted to being your Patient-Centered, Solutions-Based, Cost-Effective partner for ALL your falls management & patient safety needs. We challenge ourselves daily to be your #1 falls management & patient

safety products supplier. Our vision is to listen, learn & lead the industry in developing the highest quality products at the lowest manufacturer direct prices. When you partner with PSC you can count on being treated as our #1 customer by our entire team. **We Are Here To Exceed Your Expectations!**

#### **Reduce Falls...Reduce Costs...**

##### **Reduce Infections!**

We pride ourselves on focusing our complete attention on exceeding the expectations of our valued customers with the industry's most complete line of high quality falls management products. Your needs are our mission. Our products have assisted in reducing falls, infections & costs in over 7000 nursing homes and hospitals in the U.S., Canada & Europe.

As a result of listening to our customer's need for reducing infections in their facilities, we are pleased to introduce the industry's

first antimicrobial bed and chair monitoring pads. Our new antimicrobial monitoring pads have been tested to reduce infections caused by escherichia coli and staphylococcus aureus activity. Our monitoring pads have also been tested to reduce skin irritation and resulting bed sores. Test results can be printed from our web site.

#### **Improve Staff Education And Communication!**

In addition to providing exceptional products, above and beyond customer service and everyday low prices we continue to offer educational support to communicate falls management solutions to your staff.

#### **We Are Committed To Our Community And The Customers We Serve!**

Personal Safety Corporation is committed to providing the safest and highest quality products for your patients and residents. We are also committed to serving our community with the same deep rooted devotion to service that is the foundation of our Iowa based company.

Sincerely,

Dick Olson  
Founder & President

[www.SecureSafetySolutions.com](http://www.SecureSafetySolutions.com)

Every **20 minutes** an older adult dies from a fall in the United States. Many more are injured.

Take a stand to prevent falls

**STEADI** Stopping Elderly Accidents, Deaths & Injuries

Falls among residents of skilled nursing facilities are the leading cause of injury, hospital admissions and lawsuits for nursing home operators. The Centers For Disease Control & Prevention (CDC) reports that documented falls in LTC are 100-200 per year per 100 beds and average facility cost per fall may exceed \$17,000. Note the CDC also states the average hospital cost for a fall injury is \$35,000.

For over 25 years Personal Safety Corporation has provided the highest quality falls management products at the lowest factory direct prices to assist caregivers in reducing falls and injuries and nursing home operators in reducing the cost of managing falls and injuries.

Go to [www.SecureSafetySolutions.com/cdc\\_FallStatistics.htm](http://www.SecureSafetySolutions.com/cdc_FallStatistics.htm) for more information.

### Breaking The Fall Cycle Free CE Credits

**Content Specialist: Dr. Rein**

- Increase awareness of fall and injury preventive technology
- Increase awareness of 'how to best use' fall monitors
- Increase awareness of 'how to best use' injury preventive technology. (e.g., hip protectors, low beds and floor mats)

To participate in the FREE CE program go to [www.SecureSafetySolutions.com/free\\_ce.htm](http://www.SecureSafetySolutions.com/free_ce.htm)

\* Upon completion of Breaking the Fall Cycle Program, Nurses will receive one contact hour and CNAs will receive certificate of completion for one hour.

# NEW WIRE•LESS® Patient Monitoring System

One Year Warranty

U.S. Patent No. 9,466,204

The new patented **Secure® Wire•Less® Patient Monitoring System** takes falls management monitors to the next level by eliminating tripping hazards, removing the monitor sound from the patient room, and employing the most advanced, continuous 2.4G patented bi-directional wireless communication which minimizes interference within a facility and ensures secure, instantaneous communication between components. Competitive wireless 433MHz bandwidth is a much more overcrowded bandwidth prone to interference. **Upgrade to the highest quality, most cost effective wireless falls management monitoring system available today!**

- **Flexible Set-Up** – Mount the fall monitor away from the patient or resident in a variety of locations to maximize safety, eliminate tripping hazards, and reduce the “nuisance monitors” that are so prevalent in healthcare facilities today. Monitor may be mounted or placed outside of patient room up to 150 ft. away from the transmitter for a quieter in-room environment.
- **Reduce “Monitor Fatigue”** – Fall monitor can be mounted with wall mount (included) next to and connected to a facility’s existing nurse call system with fall monitor sound set to mute, eliminating in-room monitor sound and alerting the nurse’s station when unsafe ambulation occurs (requires optional NCI-1 Nurse Call Interface Cable).
- **Wire•Less® Bi-Directional Technology** (Patent Pending) – When triggered, the transmitter instantly sends wireless signal to fall monitor without the dangerous delay found in many other patient monitors. The fall monitor then sends a confirmation signal to the transmitter to stop the transmitter signal, effectively conserving battery life.
- **Multiple Applications** – In addition to Wire•Less® bed and chair sensor pads, the Wire•Less® fall monitor and transmitter can be paired with all Secure® bed/chair/mattress pads, floor mats, and monitoring wheelchair seat belt. Simply insert the transmitter in our AMH-1 holder and connect to any of the aforementioned Secure® monitoring pads, mats and seat belt.
- **Auto Reset** – Fall monitor automatically resets once the patient gets back on the bed/chair sensor pad. Alternatively, the monitor can be reset by pressing the reset button located on the front of the monitor. When using a floor mat sensor, the monitor will continue to monitor until the reset button is pressed.
- **Secure Connection** – Fall monitor and transmitter communicate every 5 minutes to confirm both remain safely synced. If the monitor and transmitter become unpaired the fall monitor light will flash and the monitor will sound

U.S. Patent  
No. 9,466,204

Sync up to three transmitters with one fall monitor

- continuously indicating the system is not functioning properly.
- **Low Battery Indicators** – Both fall monitor and transmitter feature low battery indicators which alert staff and caregivers when new batteries must be installed. Batteries are included with both the fall monitor and transmitter.
- **Wire•Less® Sensor Pads** – Ultra-thin Wire•Less® bed & chair sensor pads are antimicrobial, latex-free, incontinent proof, and can be folded for storage.
- **Removable Wire•Less® Transmitter** – Our unique Removable Wire•Less® Transmitter can be removed and interchanged with our Wire•Less® Bed or Chair pad. Competitive wireless transmitters are sealed into the pads and cannot be removed.
- 3x AA batteries included with WAM-1 and 2x AAA with WAT-1.
- All components are covered by a one year warranty against defects and workmanship.

## WIRELESS® One or Two Call Button Caregiver Alert System®

### One Year Warranty

- Ideal for use as a call button or emergency fall monitor to enable elderly & disabled to call a caregiver for help within a home or small facility
- System range of 500+ feet in open area; guaranteed to function in any average sized home or small facility under 5000 sf
- Operates on 433 MHz radio frequency band
- Easy to setup and operate
- Call button transmitter may be worn as a pendant, carried in pocket, or placed near the patient and is water-resistant
- Receiver may be wall mounted, carried in pocket, or placed near the caregiver
- Receiver features 23 melody sounds and 9 emergency sounds to choose from
- Receiver has three signal options including light signals for users with limited hearing
  - a) Sound only
  - b) Light only
  - c) Sound and light
- Receiver features adjustable volume level and low battery indicator
- 16 digital codes built in to ensure that another unit being operated close-by will not cause interference or false monitors

SWCB-1  
w/ One Call Button  
WCBT-1

SWCB-2S w/ Two Call Buttons  
WCBT-2R & WCBT-2B

Model No. SWCB-1 – Requires 3x AAA and 1x CR-2032 batteries (not included).....\$20.99

Model No. SWCB-2S – Requires 3x AAA and 2x CR-2032 batteries (not included).....\$25.99

## WIRELESS® Slimline

### Pager One Call Button System - One Year Warranty

- Same great features as the SWCB-1 with the addition of a new, compact receiver design and brighter flashing alert light

Model No. SWCB-1S.....\$20.99

Requires 3x AAA  
and 1x CR-2032  
batteries (not  
included)

One Call Button  
WCBT-1

### Additional Transmitters for above Receivers:

- Add up to 8 call buttons to your SWCB-1/1S or SWCB-2/2S receiver
- Great for use in multiple areas of the home or facility
- Each call button requires 1x CR2032 battery (not included)

Model No. WCBT-1 (use with SWCB-1/1S), WCBT-2R or WCBT-2B (use with SWCB-2S).....\$7.99

1.800.373.2873

## WIRELESS Caregiver Alert System® - One Year Warranty

- The Secure® Caregiver Alert System® is the perfect wireless patient alert solution for at-home caregivers and health care facilities
- The **Caregiver Pager Receiver w/Belt Clip (CAS-PGR)** or **NEW Caregiver Stationary Receiver w/Bed Shaker & Power Adapter (CAS-WCR)** wirelessly connect with up to four monitoring components – **Sensor Pad Transmitter or Nurse Call Button w/Lanyard (CAS-SPT)**, **NEW Fall Monitor w/Universal Nurse Call Button (CAS-FAM)**, **Motion Sensor (CAS-PIR)**, **Wall-Mounted Pull Cord Alert (CAS-TPC)**, **Door or Window Monitor/Chime (CAS-DWA)**
- Each monitoring component easily pairs with the Caregiver Pager Receiver or Caregiver Stationary Receiver, and a unique alert sound (choice of 18 different melody or fall monitor sounds) can be set for each connected monitoring component
- Caregiver Pager Receiver or Caregiver Stationary Receiver can be set to 1.) Sound Only 2.) Sound+Vibrate 3.) Vibrate Only

- Caregiver Pager Receiver features a belt clip to attach to users belt/waist for constant patient monitoring
- Monitoring distance up to 500 ft. in an open area (walls and other interference may decrease operating distance)
- CAS-WCR Wireless Caregiver Stationary Receiver can be wall mounted or placed anywhere within a home or small facility
- Must purchase Wireless Caregiver Pager Receiver or Caregiver Stationary Receiver and one or more monitoring components (up to four monitoring components can be paired with one caregiver pager receiver)
- Pager, Receiver & all monitoring components include batteries and mounting tape/hardware

Choice of 18 different melody or monitor sounds			
Distance	Door Bell Sound	Telephone Ring	Siren Monitor
3 feet	60 dB	70 dB	75 dB

## WIRELESS Caregiver Alert System® Fall Monitor & Pager Alert w/Universal Nurse Call Button

### One Year Warranty

#### Ideal for:

- Alerting Wireless Caregiver Pager (Model No. CAS-PGR) and working in conjunction with other Caregiver Alert System® components

- CAS-FAM fall monitor features adjustable volume & tone, ultra-bright flashing alert light, wireless connectivity to CAS-PGR Caregiver Pager Receiver or CAS-WCR Caregiver Stationary Receiver, corded connectivity to the UNCB-1 universal nurse call button, and in-room fall monitor sound off
- 6V AC/DC adapter available for CAS-FAM (sold separately)
- CAS-FAM fall monitor connects to any Secure® bed/chair pad, floor mat sensor, monitoring seat belt, or toilet seat sensor
- Included corded UNCB-1 universal nurse call button plugs into the bottom of CAS-FAM fall monitor and is placed next to the patient so they are able to signal the caregiver pager receiver whenever help is needed
- CAS-PGR Wireless Caregiver Pager Receiver (sold separately) can be attached to the caregiver's waistband using the integrated belt clip, carried in pocket, or placed nearby for continuous patient monitoring
- CAS-WCR Wireless Caregiver Stationary Receiver (sold separately) can be wall mounted or placed anywhere within a home or small facility
- CAS-FAM fall monitor includes protective holder with hook and loop attachment strap, and pre-drilled holes for wall mounting
- To view Secure® Caregiver Alert System® Fall Monitor & Pager Alert Sets go to: [http://www.SecureSafetySolutions.com/sets\\_CAS-FAM.htm](http://www.SecureSafetySolutions.com/sets_CAS-FAM.htm)

In use with Bed Pad

In use with Floor Safety Mat

#### Use the CAS-FAM & CAS-SPT with ALL...

#### ...Fall Monitoring Pads, Seat Belt and Mats\*

\*Must also purchase CAS-PGR Wireless Pager or Caregiver Stationary Receiver w/Bed Shaker (CAS-WCR) to complete system.

Model No. CAS-TPC.....	<b>\$30.99</b>
Model No. CAS-SPT *.....	<b>\$25.99</b>

\* (bed/chair/floor mat sensor pad must be purchased separately)

**1.800.373.2873**

## Standard Fall Monitor Features

- Monitors can be part of a pressure pad system or seat belt set
- One year warranty on all fall monitors
- Tamper-resistant
- Always on for resident safety – impossible for staff to forget to activate fall monitor (Meets Joint Commission guidelines)
- No monitor delay switch for resident safety
- Automatic reset
- Test and reset button
- Works with our seat belts and pads
- Low battery indicator light
- Durable break-resistant monitor casings
- Batteries and screw driver included

## Safety Technology Needs Assessment

Following an episode of falling, it's important to:

- Determine the cause of the fall (in order to prevent further falls).
- Analyze the circumstances of the fall: Location of the fall (bedroom, bathroom, hallway, etc.)

## SECURE White or Yellow Universal Fall Monitor

**Ideal for:**

- Detecting bed & chair egress at earliest stage
- Dementia; monitoring pads are discreet or imperceptible to residents

**Ideal for:**

- Helping staff identify residents at 'fall risk' during admissions and other high risk times:
- Floor-to-floor transfer
- Post fall
- Change of condition & or starting fall risk medication

Model No. SUA-1.....**\$17.99**

Holder options for both models: AMH-1, AMH-1Y, AMH-3 or SPAH-1B

- Always on for resident safety. Impossible for staff to forget to activate fall monitor. Meets Joint Commission guidelines.
- 80 dB fall monitor can be used with a monitoring pad or as a personal fall monitor
- Break-resistant ABS case
- Auto reset with low battery indicator light
- **NEW** easier to use front test & reset button
- **NEW** easier to use press & hold for 3 seconds feature to stop fall monitor from sounding
- **NEW** 9 volt battery for longer battery life
- Battery & screwdriver included
- HCPCS Code – A9280

Model No. SUA-1Y.....**\$17.99**

U.S. PATENT NO. 6,847,301

## SECURE 120 Fall Monitor **Ideal for:** Use in rooms farthest from the nurse's station

- Flashing alert light easily identifies activated fall monitor
- Choice of 120, 90 or 80 dB
- Low battery indicator light & sound continues to alert until batteries are changed
- In-room sound on/off switch
- Protective fall monitor holder included
- Optional AC power supply saves battery life
- HCPCS Code – A9280
- U.S. PATENT NO. 6,847,301

Holder options: PH-1 & PH-1Y  
Optional Nurse Call Cable (NCI-1) Only \$5.00

Model No. SUA-120.....**\$23.99**

[www.SecureSafetySolutions.com](http://www.SecureSafetySolutions.com)

## The 120, PADS®-2, Code & Voice Fall Monitors Can Be Silenced In Rooms & Are Ideal For:

- Facilities requiring fall monitors with multiple tones and decibel levels
- Allows staff to distinguish between various treatment monitors
- Notifies staff specifically of bed/chair exit events, which helps to prioritize responses

## SECURE PADS®-2 Fall Monitor **Ideal for:**

Facilities requiring monitors with multiple tones & decibel level options

- Tamper-resistant covers conceal all settings
- **NEW** easy to use test/reset button
- Can be used with or without nurse call interface
- Volume, tempo & tone settings with 70-90 dB range
- Now includes holder
- HCPCS Code – A9280
- U.S. PATENT NO. 6,847,301

Holder options: AMH-2 & PH-2

Optional Nurse Call Cable (NCI-1) Only \$5.00

Model No. PADS-2.....**\$21.99**

## SECURE Code Fall Monitor

**Ideal for:**

Residents requiring the MOST tamper-resistant fall monitor

- Tamper-resistant fall monitor requiring pressing a pre-programmed code to stop monitor sound
- Tamper-resistant covers conceal all settings
- Volume, tempo & tone settings with 70-90 dB range
- Can be used with or without Nurse Call Interface

- Low battery indicator light
- Protective fall monitor holder included
- HCPCS Code – A9280
- U.S. PATENT NO. 6,847,301

Holder options: PH-2 & AMH-2  
Optional Nurse Call Cable (NCI-1) Only \$5.00

Model No. SCA-1.....**\$27.99**

## SECURE Voice Fall Monitor

**Ideal for:**

Providing a familiar voice or music instead of a monitor sound

- Your recorded voice plays twice then the fall monitor sounds to alert staff
- Easy to use recording feature to record either a familiar voice or music sound
- Ideal for use with foreign language residents
- 2 tone choices for roommate situations
- In-room sound on/off switch
- Tamper-resistant covers conceal all settings
- 3 decibel levels (70, 80, 90 dB)

- Can be used with or without nurse call interface
- Flashing alert light easily identifies activated fall monitor
- Protective fall monitor holder included
- Optional AC power supply saves battery life
- HCPCS Code – A9280
- U.S. PATENT NO. 6,847,301

Holder options: PH-1 & PH-1Y  
Optional Nurse Call Cable (NCI-1) Only \$5.00

Model No. SVA-2Y.....**\$43.99**

1.800.373.2873

## Standard MONITORING PAD Features

- Antimicrobial and Non-Skin sensitive covers
- No Holes - "Incontinent Proof"
- Can be folded without damage
- Comfortable ultra thin design
- No weight restrictions
- Slip-resistant
- 5' connecting cord
- Metal connector, no plastic
- Can use bed pads with wide range of mattresses

 = Customer Favorites

## Bacterial Contamination

Infections represent a common and serious problem in acute hospitals and nursing facilities. Of particular concern is the colonization and spread of microorganisms from surfaces/equipment not adequately cleaned, which can result in respiratory, urinary, skin and soft tissue, and gastrointestinal infections.

### According to independent testing:

The Secure® Monitoring Pad covers are significantly free of antimicrobial activity for both escherichia coli and staphylococcus aureus; thereby reducing the likelihood of bacterial contamination.

For more information go to:  
[www.SecureSafetySolutions.com/antimicrobial.pdf](http://www.SecureSafetySolutions.com/antimicrobial.pdf)

## Skin Sores

Skin sores occur due to application of constant pressure or friction. The risk of skin sores is great during periods of prolonged sitting or lying on stiff surfaces.

### According to independent testing:

The Secure® Monitoring Pad covers are significantly free of any skin irritant; thereby reducing the chances of skin sores in susceptible patients/residents.

For more information go to:  
[www.SecureSafetySolutions.com/nonskinsensitive.pdf](http://www.SecureSafetySolutions.com/nonskinsensitive.pdf)

Large: Waist (36"-38") Hips (43"-45")

X-Large: Waist (39"-42") Hips (46"-49")

### Hip Fractures

More than 95% of hip fractures are caused by a fall. Hip Protectors are designed to:

- Act as a cushion between the hip bone and floor surface and absorb the impact of a fall on the hip bone and/or tailbone

### Proven To Be Effective

According to independent biomechanical efficacy testing:

- The Secure® Hip Protector (both hip and tailbone pads) effectively reduced the impact of force associated with a fall below the fracture threshold
- The Secure® Hip Protector, in comparison testing, performed better than other commercial brands of soft hip pads. Laboratory test results are available on our website: [www.SecureSafetySolutions.com/hipprotectors.htm](http://www.SecureSafetySolutions.com/hipprotectors.htm)

## Cushions below meet California #117 Flame Retardant Standards & include:

- One year warranty
- Ultra soft, mildew-resistant & easy to clean
- High density foam for maximum comfort
- Latex-free & incontinent-resistant
